

SERVING JACKSON, JONES, DUBUQUE AND DELAWARE COUNTIES IN IOWA & JO DAVIESS, CARROLL, AND STEPHENSON COUNTIES IN ILLINOIS

Have I told you how much I love our small communities? THIS is what your overwhelming support of our Veteran's donation drive looks like! 24 Hour Care will be picking up the donations today and begin distributing next week. A huge thank you to all who gave to this worthwhile cause ❤️

## Veterans Donation Drive

Thank you for all those who contributed to our Donation Drive at E-town Coffee in Elizabeth, IL and the Churches in Galena! We had enough donated items to fill 30 Veteran's Christmas gift bags full of wonderful items! The generosity was amazing and a BIG Thank You to Jodi for helping us on this project. We are truly grateful to have you in our community!

### Thank you

**M**any health care treatments that were once offered only in a hospital or a doctor's office can now be done in your home. Home health care is usually less expensive, more convenient, and can be just as effective as care you get in a hospital or skilled nursing facility. In general, the goal of home health care is to provide treatment for an illness or injury. Where possible, home health care helps you get better, regain your independence, and become as self-sufficient as possible. Home health care may also help you maintain your current condition or level of function, or to slow decline. Medicare pays for you to get health care services in your home if you meet certain eligibility criteria and if the services are considered reasonable and necessary for the treatment of your illness or injury.

If you get your Medicare benefits through a Medicare health plan (not Original Medicare) check your plan's membership materials, and contact the plan for details about how the plan provides your Medicare-covered home health benefits.
